1 What does it do?

Timebox is an evolutionary solution designed to meet the changing needs of today's professional broker. With its client focus, Timebox enables you to increase client profitability while improving service provision, client retention and trust.

2 How does it work?

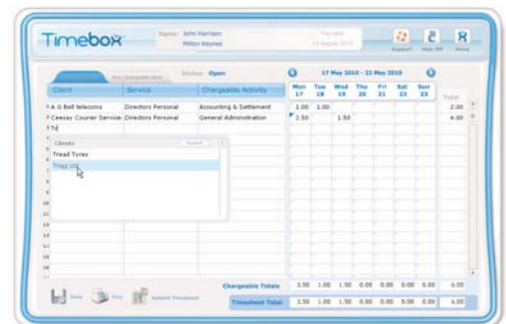

Timebox combines simplicity of use with powerful management and analytical capabilities. This means you can identify precisely where time is being spent and by whom; which accounts currently generate the most profit and exactly how much time and money is spent servicing each client.

3 Who is using Timebox today?

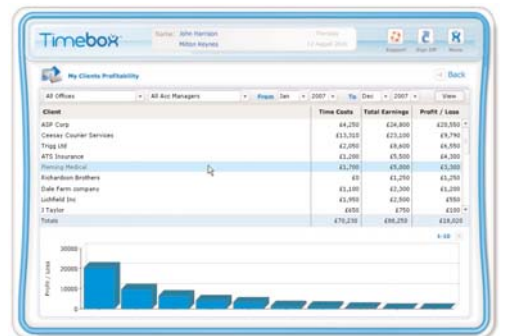

Timebox is designed specifically for Insurance Brokers to meet the differing client and service control demands of both commission and fee based brokers. It provides powerful practical information for Account Managers, Risk Management Advisors, Claims Executives and Senior Management to help you maximise the service level and profitability of your organisation.

Our users are brokers like you who are using Timebox today to improve client broking perception and trust. Timebox is allowing these brokers to improve their margins, identify profitable sectors, manage service provision to maximise income and to improve client retention and reputation.

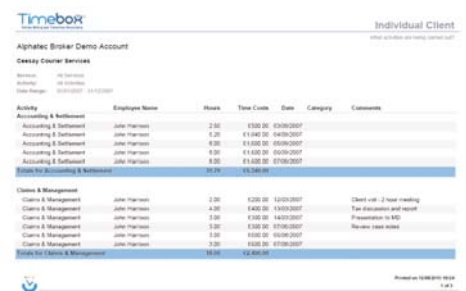

Phone us today on 0845 680 0326 to see how you can join them and start to recognise the benefits now.
